**About the Comprehensive  
Health Dictionary Series™**

Each useful and up-to-date quick reference in the 4 volume comprehensive *Health Dictionary Series™* lists and defines more than ten thousand *plus* words, abbreviations, acronyms, slang-terms, initialisms and specialized non-clinical health administration terms; alphabetically.

1. **Dictionary of Health Insurance and Managed Care**
2. **Dictionary of Health Economics and Finance**
3. **Dictionary of Health Information Technology and Security**
4. **Dictionary of Health Policy and Administration**

Physicians, dentists, medical practitioners and allied healthcare professionals; clinic, practice and hospital administrators; managers, CXOs and executives; nurses, business, graduate and medical school students; benefits managers, TPAs, HMOs and payers; financial planners, accountants, insurance agents and IT consultants; government officials, policy and decision makers, and even savvy patient consumers will find a wealth of information in these 4 volumes.

First conceived as an ambitious and much needed project by the Institute of Medical Business Advisors Inc, in 2007, the illustrated *Health Dictionary Series™* will contain more than 50,000 items upon final completion in 2008.

And now, the final volume has been electronically coupled as a submission Wiki with *iMBA's Collaborative Lexicon Query Service™*; a social network to maintain continuous subject-matter expertise and peer-reviewed user input.

And so, you too are invited to join us! Please visit today!
